## EDUCATION

University of California, Irvine

June 2024

**B.S. In Informatics, Minor in Information and Computer Sciences**

## EXPERIENCE

Mt. San Jacinto College

Aug 2020-May 2021

### Math and English Tutor

- Worked with age groups high school and beyond and specialized in tutoring for learning disabilities.
- Developed and implemented individualized lesson plans based on each student's needs and familiarity with the concept.
- Offered specialized help with class struggles by reviewing materials, assignments, and optimizing a consistent tutoring schedule for each student.

Islamic Center of Temecula Valley

Aug 2017- Aug 2019

### Volunteer Teaching Assistant

- Worked with elementary to high school aged students.
- Created a collaborative and focused atmosphere by facilitating group activities, engaging in active listening, and incorporating students' learning styles into each session.

## PROJECTS

Irvinepedia

Nov 2022

### Co-leader

- Co-led a group of 4 to create a web-based app prototype that displays information about the city of Irvine, CA. Aims to incorporate personal preference to give you the most efficient and up-to-date itinerary of a day spent in Irvine.

## ACTIVITIES

Video Game Development Club

March 2023 – June 2023

### Audio Technician

- Collaborated with team to determine project scope and set milestones.
- Collaborated with programmers and team lead to achieve desired sound for the game.
- Conducted feedback analysis and corrected any inconsistencies between the audio and game theme.

WebJam 2022

March 2023 – June 2023

### Co-leader

- A week-long competition designed for students to create their own web applications as a team. Learned valuable skills such as UI/UX, Web Development, and Accessibility.

## SKILLS

**Programming:** Python, Java, C++, HTML, CSS

**Language:** Hindi, English, American Sign Language
